

# ENJOY WATER

A close-up photograph of a woman's face and hand in a shower. Water droplets are visible on the glass partition in the background, and a hand is shown holding a showerhead.

Luxury fittings for  
exceptional bathrooms  
[www.grohe.co.uk](http://www.grohe.co.uk)

# ENJOY GROHE EVERY DAY

Visionary and innovative, GROHE products are designed to last a lifetime – investment pieces, conceived to deliver the perfect balance of quality, technology and design. High-quality materials and the latest manufacturing processes are combined with industry-leading technologies to ensure years of reliable performance.

GROHE is in a rare position of being able to offer products for all draw-off points in the bathroom. With so many designs to choose from our bathroom collections consist of three style groups: Cosmopolitan, Contemporary and Authentic – each with a distinct look and characteristic. An extensive portfolio of showering solutions, bathroom accessories and flush plates complement our fittings collections – enabling you to create a cohesive design scheme in your bathroom.

GROHE continues to invest heavily in the development of new designs and revolutionary technologies that bring tangible benefits to the consumer. Our products continue to win numerous international design awards and benefit from unmatched technologies such as GROHE SilkMove®, GROHE DreamSpray® and GROHE TurboStat®. From the first design concept to the delivery of the end product, sustainability is a primary consideration. It affects all areas of our business including: quality, technology, research and development, production and our social responsibility.

Our bathroom collections are complemented by an extensive range of kitchen faucets and our two innovative kitchen water systems, GROHE Blue® and GROHE Red™, which deliver filtered and chilled or boiling hot water straight from the kitchen faucet. To view the full collection visit our website: [www.grohe.co.uk](http://www.grohe.co.uk).

Water scarcity is a global concern. Provision of water and energy saving functions is crucial to enable reduced usage of resources by consumers. GROHE EcoJoy™ technology enables you to derive maximum enjoyment from our faucets, showers and sanitary products, while reducing your consumption of natural resources.

A new bathroom is an investment. With GROHE you can rely on our products to deliver lasting value for years to come.

# CREATING BLISSFUL SPACES

Designing your new bathroom has never been more exciting. It's a unique opportunity to create your own personal oasis – a place to retreat to after a hard day's work, to relax and unwind and let the restorative benefits of water wash all your stresses away.

Luxury hotels have opened our eyes to the wealth of products available and how clever use of materials, sanitaryware and fittings can transform a functional space into something really spectacular, while destination spas have encouraged us to take time out and experience the pleasures of hydrotherapy. The bathroom is now a place for rejuvenation and relaxation and a real pampering zone. Whether it's a quick energising shower first thing in the morning or a long, lingering candlelit soak before bed, our extensive range of brassware, showers and accessories will let you create the bathroom of your dreams. By combining superior technology with a choice of breath-taking designs, GROHE can provide you with all the elements to enhance your bathing space.

Good planning and design will result in a space that is both efficient and a joy to use. Books, magazines and, of course, this brochure are all great sources of inspiration and will help you build up a picture of how you want your space to look and perform. Visit our website [www.grohe.co.uk](http://www.grohe.co.uk) for additional product information, planning and installation solutions. And don't forget the other elements that will enhance your time spent bathing. Install dimmable lighting, a music system and perhaps even an armchair; these additions will all help make your bathroom a personal wellness centre.

Design is in the details – so why not choose the fittings first! Mixer, bath fillers and showers are not only the hardest working pieces of bathroom equipment; they're the most exciting too. Our collections feature numerous design styles, from ultramodern shapes to timeless classics. Take a look through these pages and you're sure to find a fitting to match your bathroom scheme. Then turn to our shower section where you'll find our extensive range of feature-packed showering solutions.

**Large or small, open plan or intimate, GROHE has a solution for all your bathroom requirements**

## **Small spaces**

Even the smallest of bathrooms can benefit from GROHE technology. A number of our faucet ranges include mixers designed specifically for small basins, while our shower systems can be fitted into the tightest of corners.

## **Bathroom living**

Bathrooms are evolving and fast becoming living spaces in their own right. Open-plan sleeping and bathing spaces – whereby the bedroom and en-suite are combined – are the norm in modern city apartments. In a situation like this, GROHE Whisper® technology comes into its own.

## **Personal home spa**

Advanced GROHE technology and directional design means that you can bring the spa experience into your own home. Imagine taking a shower under a waterfall surrounded by massaging body sprays and then stepping into a deep bath filled to the temperature of your choosing. With GROHE you really can have it all.

# ENJOY WATER SUSTAINABLY

Save water. Save energy. Conserve resources. How bothersome and bleak that sounds! Yet many of GROHE's groundbreaking technologies prove that a hands-on sense of responsibility can be invigorating – not only for the environment but also for you.

# TAKE RESPONSIBILITY WILLINGLY. ENJOY WATER SUSTAINABLY

In this day and age, would anyone still allow litres of unused water to mindlessly pour down the drain while brushing their teeth? Today, our awareness of the precious nature of this element is much too great.

Only three percent of the Earth's water is drinkable. For GROHE, the conscious, economical use of energy and resources is not just a challenge but also a great pleasure. That's why we channel all of our inventive spirit into masterminding sustainable systems. For example, our GROHE EcoJoy™ technology has long been a self-evident part of many of our fittings and showers. It helps save up to 68 percent of water used – and truly lives up to its name.

Of course, it's not just in the bathroom but also in the kitchen that GROHE translates active eco-mindedness into comfort and convenience your conscience can live with. Now, for instance, you can rest easy and enjoy the luxury of running boiling-hot water straight from the faucet. Thanks to GROHE Red™, you need less energy at the end of the day than when you heat water the conventional way. And with GROHE Blue®, you're permanently spoilt for choice between cool, still table water and refreshing sparkling water without a truckload of mineral water bottles ever having to make the journey into your home. This way, you even save the energy of having to carry them upstairs.

GROHE WaterCare®

# WE MADE A PROMISE TO THE PLANET. ENJOY WATER SUSTAINABLY

GROHE EcoJoy™ technology helps us and you keep our promise – but also keep on enjoying water. This technology is already built into many of our fittings and showers as standard. It minimises consumption and maximises convenience.

## GROHE EcoJoy™

50%

GROHE single-lever mixers – On numerous models across all style and price segments, integrated technology automatically reduces water consumption by up to 50% compared to standard rates every time the tap is turned on, yet still ensures that same perfect flow.

40%

GROHE showers – For your perfect shower experience, a built-in technology effortlessly saves up to 40% of water on selected models, while delivering all the features and performance you would expect from a GROHE shower.

48%

GROHE thermostats – With GROHE thermostats, the desired water temperature is reached within a fraction of a second and reliably maintained for the duration of your shower. No more time and water wasted while fiddling with controls to get the temperature right!

50%

GROHE sanitary systems – Ecologically sensible: GROHE faucets use water very sparingly. The start/stop and dual flush systems offer the opportunity of selecting one's preferred economical flush.

70%

GROHE special faucets – Thanks to the electronic control, water only flows through these mixers when needed. Depending on the model, the mixer automatically turns off and saves water when the user removes his hands, for example during soaping, or after a pre-set time.

# BEAUTY GENERATES LOVE. ENJOY DESIGN

Design is a fundamental pillar of the GROHE brand. We subscribe to a straightforward and customer-centric design philosophy, grounded in the belief that good design must transcend form and function to create an emotional bond with its users.

GROHE products and services should surprise and delight their users throughout their long service lives. Moreover, all points of interaction with our brand – from packaging to our website – are developed with great care and attention to detail, reflecting the passion and commitment which go into the creation of our products.

# PLEASE, PLEASE DO TOUCH! ENJOY TECHNOLOGY

## GROHE EcoJoy™

Integrated water-saving technology reduces water and energy consumption without compromising on design, performance and product enjoyment.

## GROHE SilkMove®

Precise and effortless water control for a lifetime of smooth and comfortable faucet handling.

## GROHE StarLight®

A radiant chrome finish that resists soiling and tarnishing for enduring pristine looks.

## GROHE DreamSpray®

Perfectly matched nozzles for a perfect spray pattern.

#### GROHE TurboStat®

Always the right temperature.  
Reacts instantly to changes  
in water pressure.

#### GROHE CoolTouch®

No risk of scalding yourself  
on a hot chrome surface.

#### GROHE QuickFix® Plus

Faster, easier and hassle-free,  
GROHE QuickFix® Plus cuts  
installation time by up to 50%.

#### GROHE Whisper®

Advanced engineering removes noise  
transfer to the structure of the building  
for quieter customer operation.

# SIMPLY PERFECT. ENJOY TECHNOLOGY

Given the great diversity of GROHE's range, it's almost a shame that our products last a lifetime. How come they do? It's because we don't just make bathroom fittings. We constantly work at understanding what consumers needs are and we continuously work on developing the right solution. We turn the world's leading, responsible technology into picture-perfect products that make life as convenient as possible and make using water even more enjoyable.

## GROHE StarLight®

A radiant chrome finish that resists soiling and tarnishing for enduring pristine looks.

## GROHE SilkMove®

Precise and effortless water control for a lifetime of smooth and comfortable faucet handling.

## GROHE EcoJoy™

Integrated water-saving technology reduces water and energy consumption without compromising on design, performance and product enjoyment.

## GROHE QuickFix® Plus

Faster, easier and hassle-free, GROHE QuickFix® Plus cuts installation time by up to 50%.

of the GROHE Europlus basin mixer*

# GROW OLD TOGETHER. ENJOY QUALITY

At GROHE's life testing laboratories in the Black Forest, our products are put through their paces and shown no mercy. Here, our taps, showers, thermostats and all the components that go with them have to endure the simulated effects of 20 years' daily use – with especially hard water. We outperform our own as well as international quality standards in the process and it shows. GROHE quality goes well beyond an article's normal life cycle and, should a certain product be discontinued, replacement parts remain available for a minimum of ten years.

Also in independent tests overseen by rigorous juries, our taps, showers and thermostats impressed. In a durability test conducted by German testing and inspection services provider TÜV SÜD, GROHE's Eurodisc won against nine other prestigious competitors. Thanks to GROHE SilkMove® technology which ensures incomparably smooth and easy operation in all of our single lever mixers.

In a survey by LGA Qualitest GmbH, our Grohtherm 3000, 2000 and 1000 thermostats each took first place among 17 thermostats from European manufacturers. Thanks to GROHE TurboStat® and GROHE CoolTouch®, our Grohtherm 3000 even came out overall winner with top scores in four categories. And since we ourselves are pretty proud of our achievement, we'd also like to mention that the GROHE plant at Hemer, Germany, was among the winners of the "Die beste Fabrik" ("Best Factory") competition organised by leading business magazine WirtschaftsWoche – for production, logistics, customer focus and innovation.

A high-caliber jury composed of scientists and experts evaluated all processes from the production floor to the supply chain, with the GROHE factory scoring excellent results particularly in terms of customer orientation and innovation.

# ENJOY GROHE BRASSWARE

It's a good feeling to cultivate your style and express your personality in all the things you surround yourself with in life. But when your aspirations go beyond the norm, your choices narrow. That's why we'd like to present you our large selection of bathroom fittings that reflect the latest in quality and technology.

# GROHE BRASSWARE

Make a statement in your bathroom with a GROHE tap. From modern sculptural lines to traditional silhouettes, there's a style and shape to match every interior and budget. Like a fine piece of jewellery or a luxury watch your choice of bathroom fittings is a way of expressing your personal style and values. Not only do they add a chic finishing touch, they are a focal point too.

## Cool looks

Our exciting collections come in an amazing array of styles, sizes and configurations. We have modern, linear shapes to suit architectural spaces, contemporary styles for family homes and traditional designs to enhance period-style bathrooms. All of them are packed with the latest technology for a lifetime of smooth operation and low maintenance – just one of the reasons why you'll find GROHE products in some of the world's best hotels.

## Perfect products

Thanks to GROHE's unrivalled technologies – developed over the past 70 years – dripping taps and sudden surges of water are no longer an issue. Our superior cartridge design incorporates GROHE SilkMove® technology. The ceramic discs are made from a space-proven ceramic alloy with a smooth mirror-like surface – for smooth operation and an extra wide operating angle that enables precise control of temperature change. While GROHE StarLight® technology gives all our products a radiant life-long shine due to our superior chromium finish.

## Material gains

Basins made from materials such as glass, natural stone and ceramics are now commonplace in the bathroom and can be used to make a real style statement. Counter-mounted stone bowls in marble and limestone will add a cool touch of organic minimalism while a shallow rectangular tray is a perfect addition to the ultra-modern home. Whether you require a small tap to fit a tiny corner basin or a three-hole mixer set with tall, sculptural spout we have the options to fit every basin permutation. And it's not just basins that benefit from GROHE's unbeatable technology and choice. Our bath ranges and bath/shower mixers lend a coordinated look to your bathroom and come with the added benefits of high flow rate and low noise level – convenient, comfortable and blissfully quiet.

## Our ranges are available in a number of styles to suit various design needs.

### Single-hole basin mixers

are available in two styles: one-hand mixers – where water flow and temperature are operated together by one lever; and dual lever – hot and cold water are controlled independently.

### Three-hole basin mixers

This set-up comprises two handles and a central spout. They can be either deck- or wall-mounted.

### Pillar taps

These deliver either hot or cold water for small guest bathrooms or representative commercial construction where space – and energy saving solutions are required.

### Bath/shower mixers

Hot and cold water are mixed in one single unit, a diverter valve allows the water to be used for both the bath and the shower. They can be either deck- or wall-mounted or concealed.

### Integrated bath solutions

Bath combinations are designed to be integrated into the bath surround and come complete with a hand shower. GROHE's Talentofill is a single discreet unit that operates as a water inlet, overflow system and pop-up waste control.

# GROHE SILKMOVE®

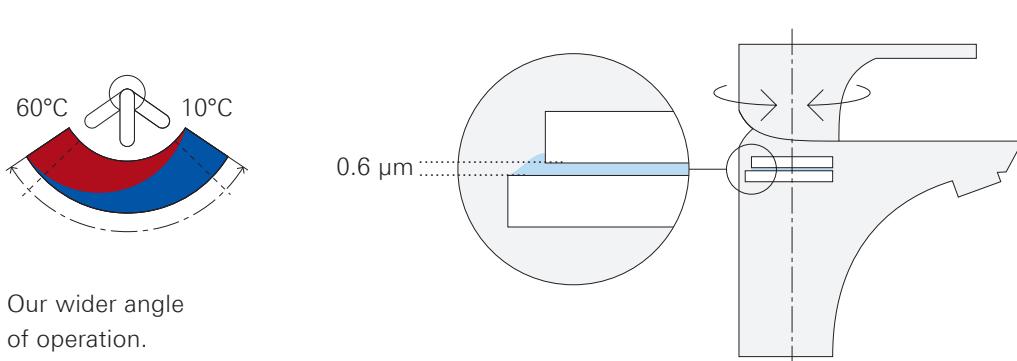

Only GROHE mixers deliver the unique GROHE SilkMove® experience. The rich, smooth handling of our single lever taps conveys the quality and superiority of our brand. The sensory feedback delivered by a GROHE tap is one of substance – as you change the temperature from hot to cold, one ceramic disc effortlessly glides across the other with absolute precision. GROHE SilkMove® is an interactive sensation which you will experience day after day for the life-time of your tap.

The cartridge is the nerve centre of every mixer and where the ceramic discs are located. The lever handle of the tap is connected to the discs by a shaft – GROHE uses solid brass for strength and durability. As the discs move over each other, they either block the water or allow it to pass through. Therefore the quality and machining of these parts will affect the performance of the mixer.

GROHE is one of the world's leading tap manufacturers and one of the few that manufacture their own cartridges. Our cartridges are manufactured in a high-tech process and feature discs made from a space-proven ceramic alloy. The polished mirror-like surface of the discs is then coated with a special Teflon lubricant for frictionless operation. And because our mixers are designed to withstand years of use, we incorporate micro-chambers of this lubricant within the cartridge – for a lifetime of maintenancefree operation.

As a result of this state-of-the art technology, our mixers have an extra-wide operating angle, allowing you to exactly manage the water flow and temperature.

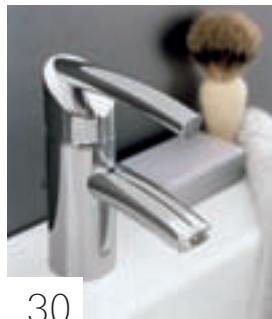

Like all our technologies, GROHE SilkMove® is yet another perfect example of design and technology working in harmony to give you an enhanced water experience.

# GROHE TENSO

A bold and striking fusion of straight and curved cylinders, Tenso expresses a contemporary signature through the parallelism of its lever and spout.

With its ergonomic design, the mixers curved lever benefits from GROHE SilkMove® technology, for smooth and effortless control of water flow and temperature. GROHE StarLight® – our luxurious chrome finish – highlights Tenso's cylindrical form, while providing a lifelong permanent shine.

# GROHE QUADRA

GROHE SilkMove® technology, for precise control over water temperature and flow, enhances the ergonomic design of Quadra's loop handle. A choice of three basin options is supplemented by bath and shower mixers – all finished with GROHE StarLight®, our refined chrome surface.

A choice of styles and mounting options ensures there's a tap to match the latest basin designs. For reduced water consumption, a GROHE EcoJoy™ variant perfectly illustrates that it is possible to combine great design with a respect for natural resources.

# GROHE QUADRA

Basin and bath mixers in the Quadra collection benefit from a spout with a recessed mousseur. This attention to detail maintains the purity of the design while delivering comfort to the user and clarity to the bathing space.

Featuring an ergonomically loop-shaped lever, the streamlined profile of Quadra makes a bold iconic statement. Soft radii reflect a move towards products that adhere to a Minimalist aesthetic, but bring a human element to the spaces in which they are used.

# GROHE EUROCUBE

For a sharp, tailored look in your bathroom choose Eurocube. Here is a design so cleverly engineered that we are able to offer an extensive choice featuring true square design for the basin, bidet, shower and bath. Across the range, cut-out detailing on the lever handles reduces the perceived volume of each piece, while highlighting the minimalist appeal of the collection.

Perfectly aligned to the design needs of today's cosmopolitan consumers, Eurocube offers cutting-edge, geometric styling at an unbeatable price. At the same time it benefits from two leading GROHE technologies: GROHE SilkMove® – for smooth and comfortable operation of single lever mixers and GROHE StarLight® – our resilient chrome finish.

# GROHE EUROSTYLE COSMOPOLITAN

Featuring a distinctive keyhole-shaped lever handle pitched at the inviting angle of seven degrees, Eurostyle Cosmopolitan offers a unique design proposal for the modern bathroom. Utilizing an astute mix of simple curves and flowing forms, the collection benefits from GROHE SilkMove® technology to ensure handling of your bathroom mixer is always a smooth, precise and comfortable experience. Even after years of daily use.

With an extensive line up of products, all finished in GROHE StarLight® chrome, everybody can benefit from leading GROHE design. Product choices include a 4-hole bath combination and a single-lever shower mixer with an innovative storage shelf – ensuring showering products are always close to hand.

# GROHE EUROSMART COSMOPOLITAN

Reflecting the core values of Minimalism, Eurosmart Cosmopolitan is the modern favorite in the bathroom. Finished in sparkling GROHE StarLight® chrome, the conical transition from the faucet body to the lever handle conveys a refined form without sacrificing solidity.

An extensive line up of products brings architectural design preferences to a wider audience and includes four styles of basin faucet to complement the latest bathroom ceramics. For improved user comfort, the lozenge-shaped lever handle is pitched at an angle of seven degrees and benefits from GROHE SilkMove® – our superior cartridge technology, which delivers lifelong smooth handling across the collection.

# GROHE CHIARA

Available in sparkling GROHE StarLight® chrome, Chiara is the perfect choice for contemporary consumers searching for a range that is modern yet elegant. Its sweeping profile and ergonomically shaped loop-handle are enhanced by GROHE SilkMove® technology, for precise and comfortable control of the water flow and temperature.

Quietly sophisticated yet entirely up-to-date, Chiara's dynamic look is enhanced by the refined lines of its loop-shaped lever handle. The collection includes concealed shower and bath/shower mixers – all framed by a gracefully arched wall plate, which enhances the collection's modern appeal.

# SAFE, FAST AND EFFICIENT. ENJOY GROHE THERMOSTATS

We've all been there before. You've just stepped into the shower when someone else in the house either turns on a faucet or flushes the toilet; suddenly the temperature of your shower plummets or becomes scalding hot – leaving you with soap in your eyes as you try to manually adjust the temperature back to a comfortable level. Install a GROHE thermostat and you can be sure of a safe and enjoyable showering experience every time.

## What's inside?

Thermostatic valves work by constantly mixing hot and cold water to a pre-selected temperature. Even if there is a change in the water supply, the thermostat reacts by rebalancing the quantities of hot and cold water to maintain the correct temperature. In the most extreme cases, i.e. should the cold water supply fail, the hot water shuts off instantly to prevent scalding.

## Style choices

GROHE offers concealed and surface-mounted thermostats. With concealed models, the valve is installed behind the wall for a modern look. With surface-mounted thermostats, all the pipe work is behind the wall.

## User-friendly features

Our thermostats also feature a SafeStop button, to prevent children from turning up the temperature and scalding themselves, and an EcoButton to reduce water usage by up to 50%. Our EasyLogic controls are intuitive to use and cater to the entire family, whatever their height is, while the AquaDimmer allows you to turn the water on and off, adjust the flow rate and divert between two water outlets.

## GROHE thermostats are the proven winners

LGA QualiTTest GmbH, a subsidiary of TÜV Rheinland, carried out a major product test in 2006 that compared 17 thermostats from leading European manufacturers. In all classes our Grohtherm 3000, 2000 and 1000 thermostats achieved 1st place. Thanks to GROHE TurboStat® and GROHE CoolTouch® technologies, our Grohtherm 3000 won best product– achieving the top position in all four test categories.

### GROHE's quick guide to thermostat technology.

#### What is a thermostat?

A thermostat maintains an exact water temperature of your choice, even when water is used elsewhere at home.

#### How does it work?

The thermostatic valves mixes the hot and cold water and reacts instantly to any changes in the supplies, ensuring the temperature is maintained to within + or - one degree.

#### What are the benefits?

The pre-set temperature is reached within a fraction of a second and remains constant so there's no risk of scalding.

#### Are there different types available?

Yes, GROHE offers many different models to suit every style of bathroom.

# GROHE THERMOSTATS YOUR COMFORT IS OUR PRIORITY.

Safe, fast and efficient – GROHE thermostats combine industry-leading technologies with the latest designs. Comfort, safety and water-efficiency were top priorities during the creation of the Grohtherm range. GROHE TurboStat® technology, reaches the desired temperature in a fraction of a second and maintains it for the duration of your shower. With GROHE CoolTouch® technology there's no risk of scalding yourself on a hot chrome surface.

## **GROHE TurboStat®**

For convenience, comfort and safety, our thermostats feature GROHE TurboStat® technology. By increasing the sensitivity of the thermo element and restructuring the internal waterways, our thermostats react to abrupt changes in water pressure twice as fast than before, and are up to nine times more accurate than the leading competitors. The desired temperature is reached in a fraction of a second and maintained for the entire duration of your shower.

## **GROHE CoolTouch®**

With GROHE CoolTouch® technology, the entire outer surface of our Grohtherm 3000 Cosmopolitan, 3000 and 2000 thermostats never exceeds the temperature of the shower water. An innovative cooling channel and special couplings where the hot water enters the thermostat and creates a barrier between the hot water and the chrome surface, so there's no risk of scalding yourself on a hot chrome surface – a real plus not only for families with young children.

## **GROHE EcoJoy™**

When it comes to saving water in the shower, every drop counts. Our shower thermostats feature an EcoButton on the handle – allowing the user to choose when to save water. When activated, the button reduces water usage by up to 50% without sacrificing enjoyment – just less water, same perfect flow.

The outstanding precision of GROHE TurboStat® technology also contributes to water saving – e.g. should there be a drop in the water pressure during your shower, the fast reaction time of GROHE TurboStat® technology means that the thermostat re-adjusts the temperature for you – so you don't have to waste time (or water) manually adjusting the shower control.

Find your perfect match with a Grohtherm thermostat. From the pure, cylindrical form of our Grohtherm 3000 Cosmopolitan to the entry-level Grohtherm 1000, the range offers a choice of designs to meet all of your requirements.

GROHE TurboStat® technology guarantees a steady stream of comfortably hot water. Any fluctuations in the water temperature or pressure are compensated within a fraction of a second, leaving you to enjoy your shower at the temperature of your choice.

And there's no chance of burning your fingers on a hot chrome surface, thanks to GROHE CoolTouch® technology. For added comfort and safety, our Grohtherm 3000 Cosmopolitan, 3000 and 2000 thermostats feature a sophisticated water-cooling system, to ensure the surface of the thermostats is never too hot to touch.

Thanks to their fast temperature finding and split-second response time, all GROHE thermostats can help you save water and energy and can be found within the GROHE EcoJoy™ collection of resource-efficient products. Furthermore, our deep chrome finish, GROHE StarLight®, resists tarnishing to ensure a luminous shine for years to come.

# GROHTHERM 3000 COSMOPOLITAN

Grohterm 3000 Cosmopolitan thermostats combine modern, minimalist design with our award-winning thermostatic technology for relaxing shower enjoyment. Based on a simple aesthetic philosophy of extruding cylinders in perfect proportions to create balance and harmony, the pure design is enhanced by GROHE StarLight® chrome – a deep, luxurious finish, which resists soiling and tarnishing.

GROHE TurboStat® responds rapidly to any fluctuations in pressure – maintaining your perfect water temperature, while GROHE CoolTouch® ensures the surface temperature of the thermostat never exceeds the temperature of the shower water – eliminating the risk of scalding from hot chrome surfaces. For a water-efficient bathroom, the EcoButton on the handle enables you to reduce your water consumption by 50%.

The range of exposed and concealed models complements GROHE Cosmopolitan collections – enabling effortless design coordination in the bathroom.

# GROHE RAPIDO

Concealed bath and shower mixers lend a clean, modern look to a bathroom – where only the essential elements are on show. With its shallow installation depth and choice of single lever or thermostatic operation, Rapido is a universal solution that enables you to create your perfect shower. Once installed, the concealed body is completed with a mixer trim set. Available in a wide range of designs to match our tap and shower collections, the trim set can be chosen at a later stage as all designs are compatible with the concealed body.

# THE INNOVATIVE CONCEALED SOLUTION FROM GROHE. GROHE RAPIDO

## **Ultra flat design, only 70 mm installation depth**

Whether you're renovating an existing bathroom or creating a new one, Rapido is the perfect solution for concealed bath and shower faucets. Rapido is the ultra-flat concealed solution from GROHE. With only 70 mm installation depth it will fit into any wall. Where space is limited, Rapido is the solution.

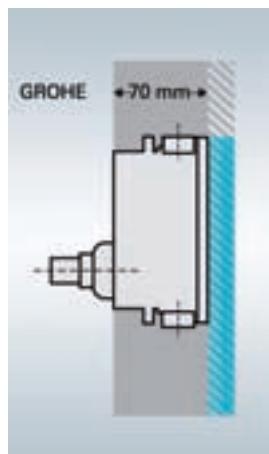

## **Fast and safe installation**

With Rapido, you're always on the safe side. The concealed box and mixer body comes as a complete ready-to-install unit with coded water inlet and outlet connections. So there's no chance of it being installed incorrectly. The unit is 100% tested before it leaves our factory to ensure a lifetime of perfect and safe operation.

## **Numerous possibilities for maximum comfort**

Whether you choose a thermostat with GROHE TurboStat® or a single-lever mixer with GROHE SilkMove®, you can always rely on GROHE quality. GROHE Rapido E features our advanced GROHE SilkMove® technology, for a lifetime of smooth handling. For maximum showering enjoyment, GROHE Rapido T benefits from GROHE TurboStat® technology – for safety, comfort and water efficiency. Thanks to an excellent flow rate of over 50 litres per minute\* and a third outlet, Rapido T is also the perfect choice for a custom shower where you wish to install a head shower, hand shower and side showers.

# GROHE DREAMSPRAY® ENJOY GROHE SHOWERS

All our showers incorporate GROHE DreamSpray® technology. This winning formula of quality and innovation creates optimal water distribution for an unparalleled showering experience. As experts in water technology, it is our mission to develop superior showers with outstanding features.

Just like cars, showers have engines too. The exceptional quality, precision and sheer number of internal parts set GROHE showers apart from our competitors.

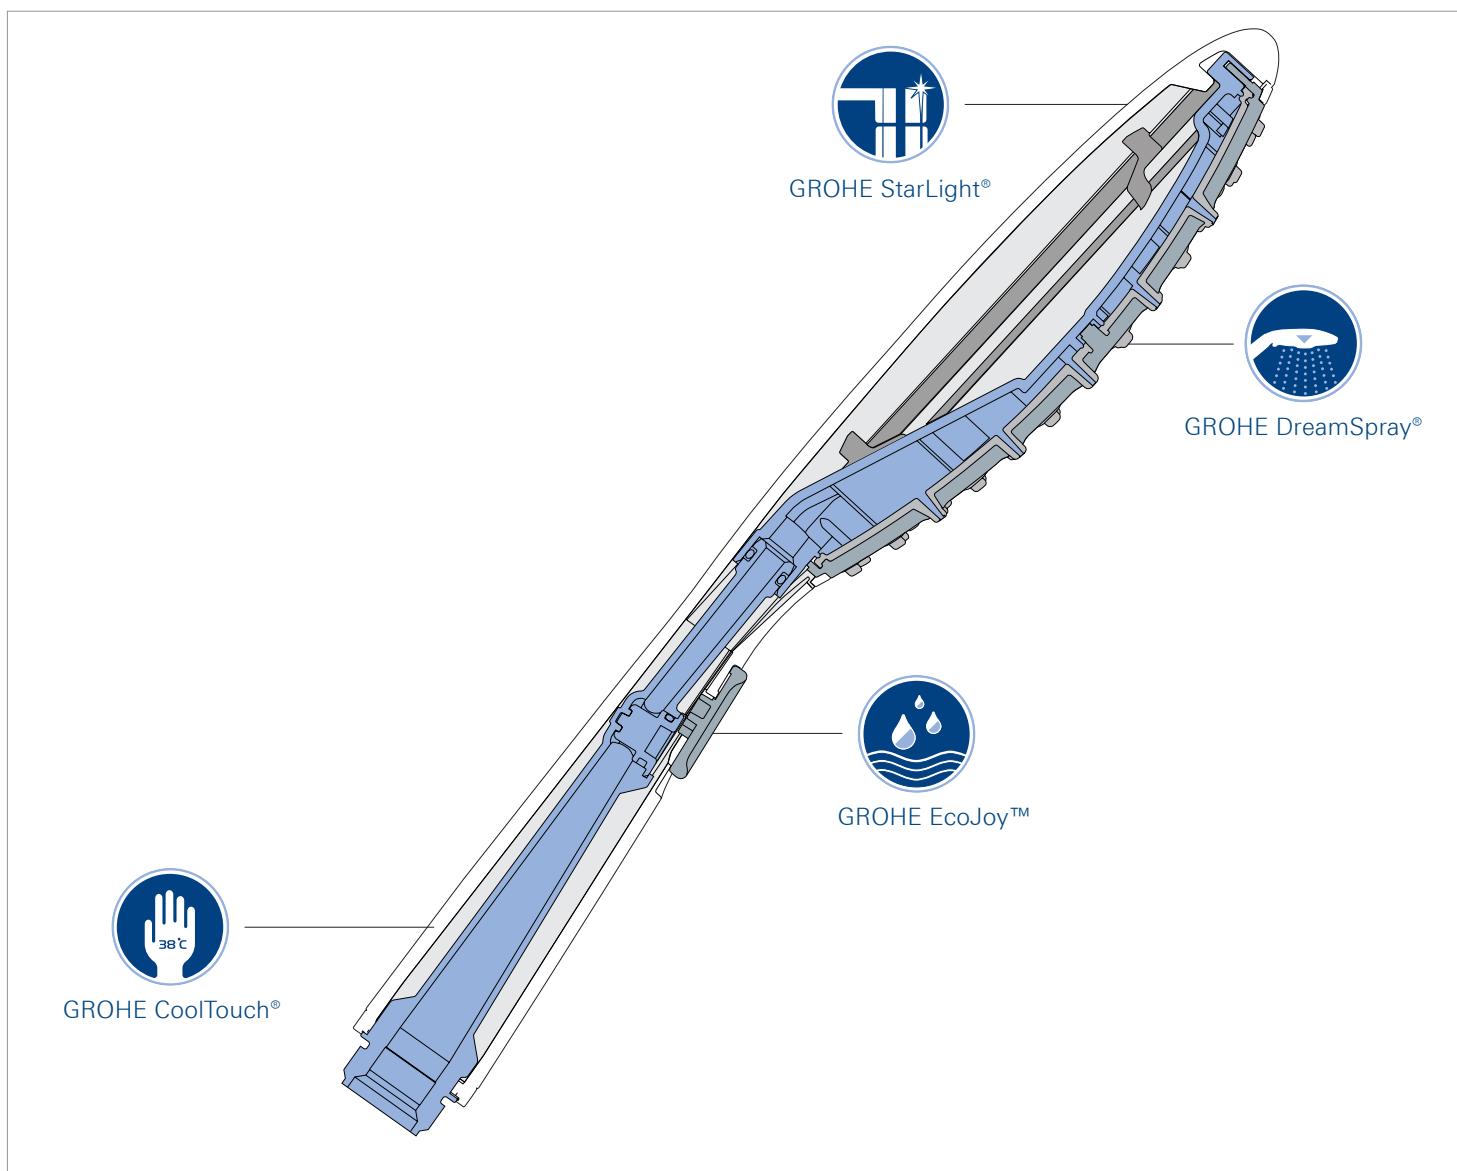

Our unique design distributes the same amount of water to each and every nozzle, resulting in an even spray. So whatever pattern suits your mood – Normal, Champagne spray, Pure, Jet, Rain or Massage – you're guaranteed that it will be an all-over exhilarating experience.

Limescale build up is a thing of the past with our SpeedClean nozzles. Made from multi-component silicone, a quick wipe with your cloth or hand is all that's required to remove any limescale.

The advanced GROHE CoolTouch® technology creates a thermal barrier between the hot water and the surface of all our hand showers. This prevents the chrome finish from cracking and ensures it's never too hot to handle – a real plus if you're using very hot water to clean the bath.

With all these amazing features, plus the added benefits of GROHE StarLight® – for a sparkling chrome finish, it's hardly surprising that our showers will give you a lifetime of pleasure and enjoyment.

And like all GROHE EcoJoy™ products, a wide selection of shower models feature integrated water-saving technology, allowing you to reduce your water and energy consumption without compromising on design or performance. A universal  $\frac{1}{2}$ " thread allows easy mounting on all standard shower connections.

#### Normal spray

A great all-encompassing spray pattern with a refreshing and relaxing effect. Its universal appeal makes it a great all-rounder.

#### Rain spray

Wide and luxurious – a soft, delicate pattern to soothe the skin. Mimicking warm summer rain, the spray provides a full and even coverage.

#### Smart Rain spray

All the features and benefits of our authentic Rain spray but with a reduced flow. A smart pattern that uses less water to deliver full showering enjoyment.

#### Rain O<sup>2</sup> spray

A soft, smooth spray based on our original Rain spray. Air is drawn into the shower head and mixed with the water for a wide and fuller spray.

#### Pure spray

The name says it all. A soft stream of pure water delivered from the centre of the shower head – reminiscent of a fresh, mountain spring.

#### Jet spray

A focussed circular spray, which delivers a refreshing burst of water. Ideal for stimulating the skin or simply cleaning the bathtub or shower.

#### Massage spray

A pulsating spray pattern for a stimulating massage.

#### Champagne spray

Enriched with air for bigger, softer water droplets. More air means that less water is required when using this fulfilling and gentle spray pattern.

#### Deluxe Champagne spray

An extra-rich spray bursting with soft water droplets

# GROHE SHOWER SYSTEMS

For maximum showering comfort and enjoyment choose a GROHE Rainshower® system. Our wide choice of feature-packed designs ensures there's a system to suit all personal showering habits, style preferences and installation scenarios. All models feature GROHE DreamSpray® – for perfect water distribution to every nozzle, while GROHE CoolTouch® technology ensures the outer surface is never too hot to touch.

Combining a Rainshower® head shower and a Sena hand shower, the luxurious systems are easy to install and feature the functionality of either a thermostat or a diverter. For the ultimate experience, Rainshower® systems with adjustable body jets deliver tailor-made showering for all family members – whatever their height.

# GROHE RAINSHOWER® F-SERIES

Designing a bespoke shower allows the individual to build a user-specific experience – one that is as unique as they are and harmonizes their showering requirements.

Rainshower® F-Series ceiling, head and side showers enable the user to create their preferred interface with water. The flat panels blend seamlessly into the surrounding environment, reducing the technical nature of the product and maximizing the showering space.

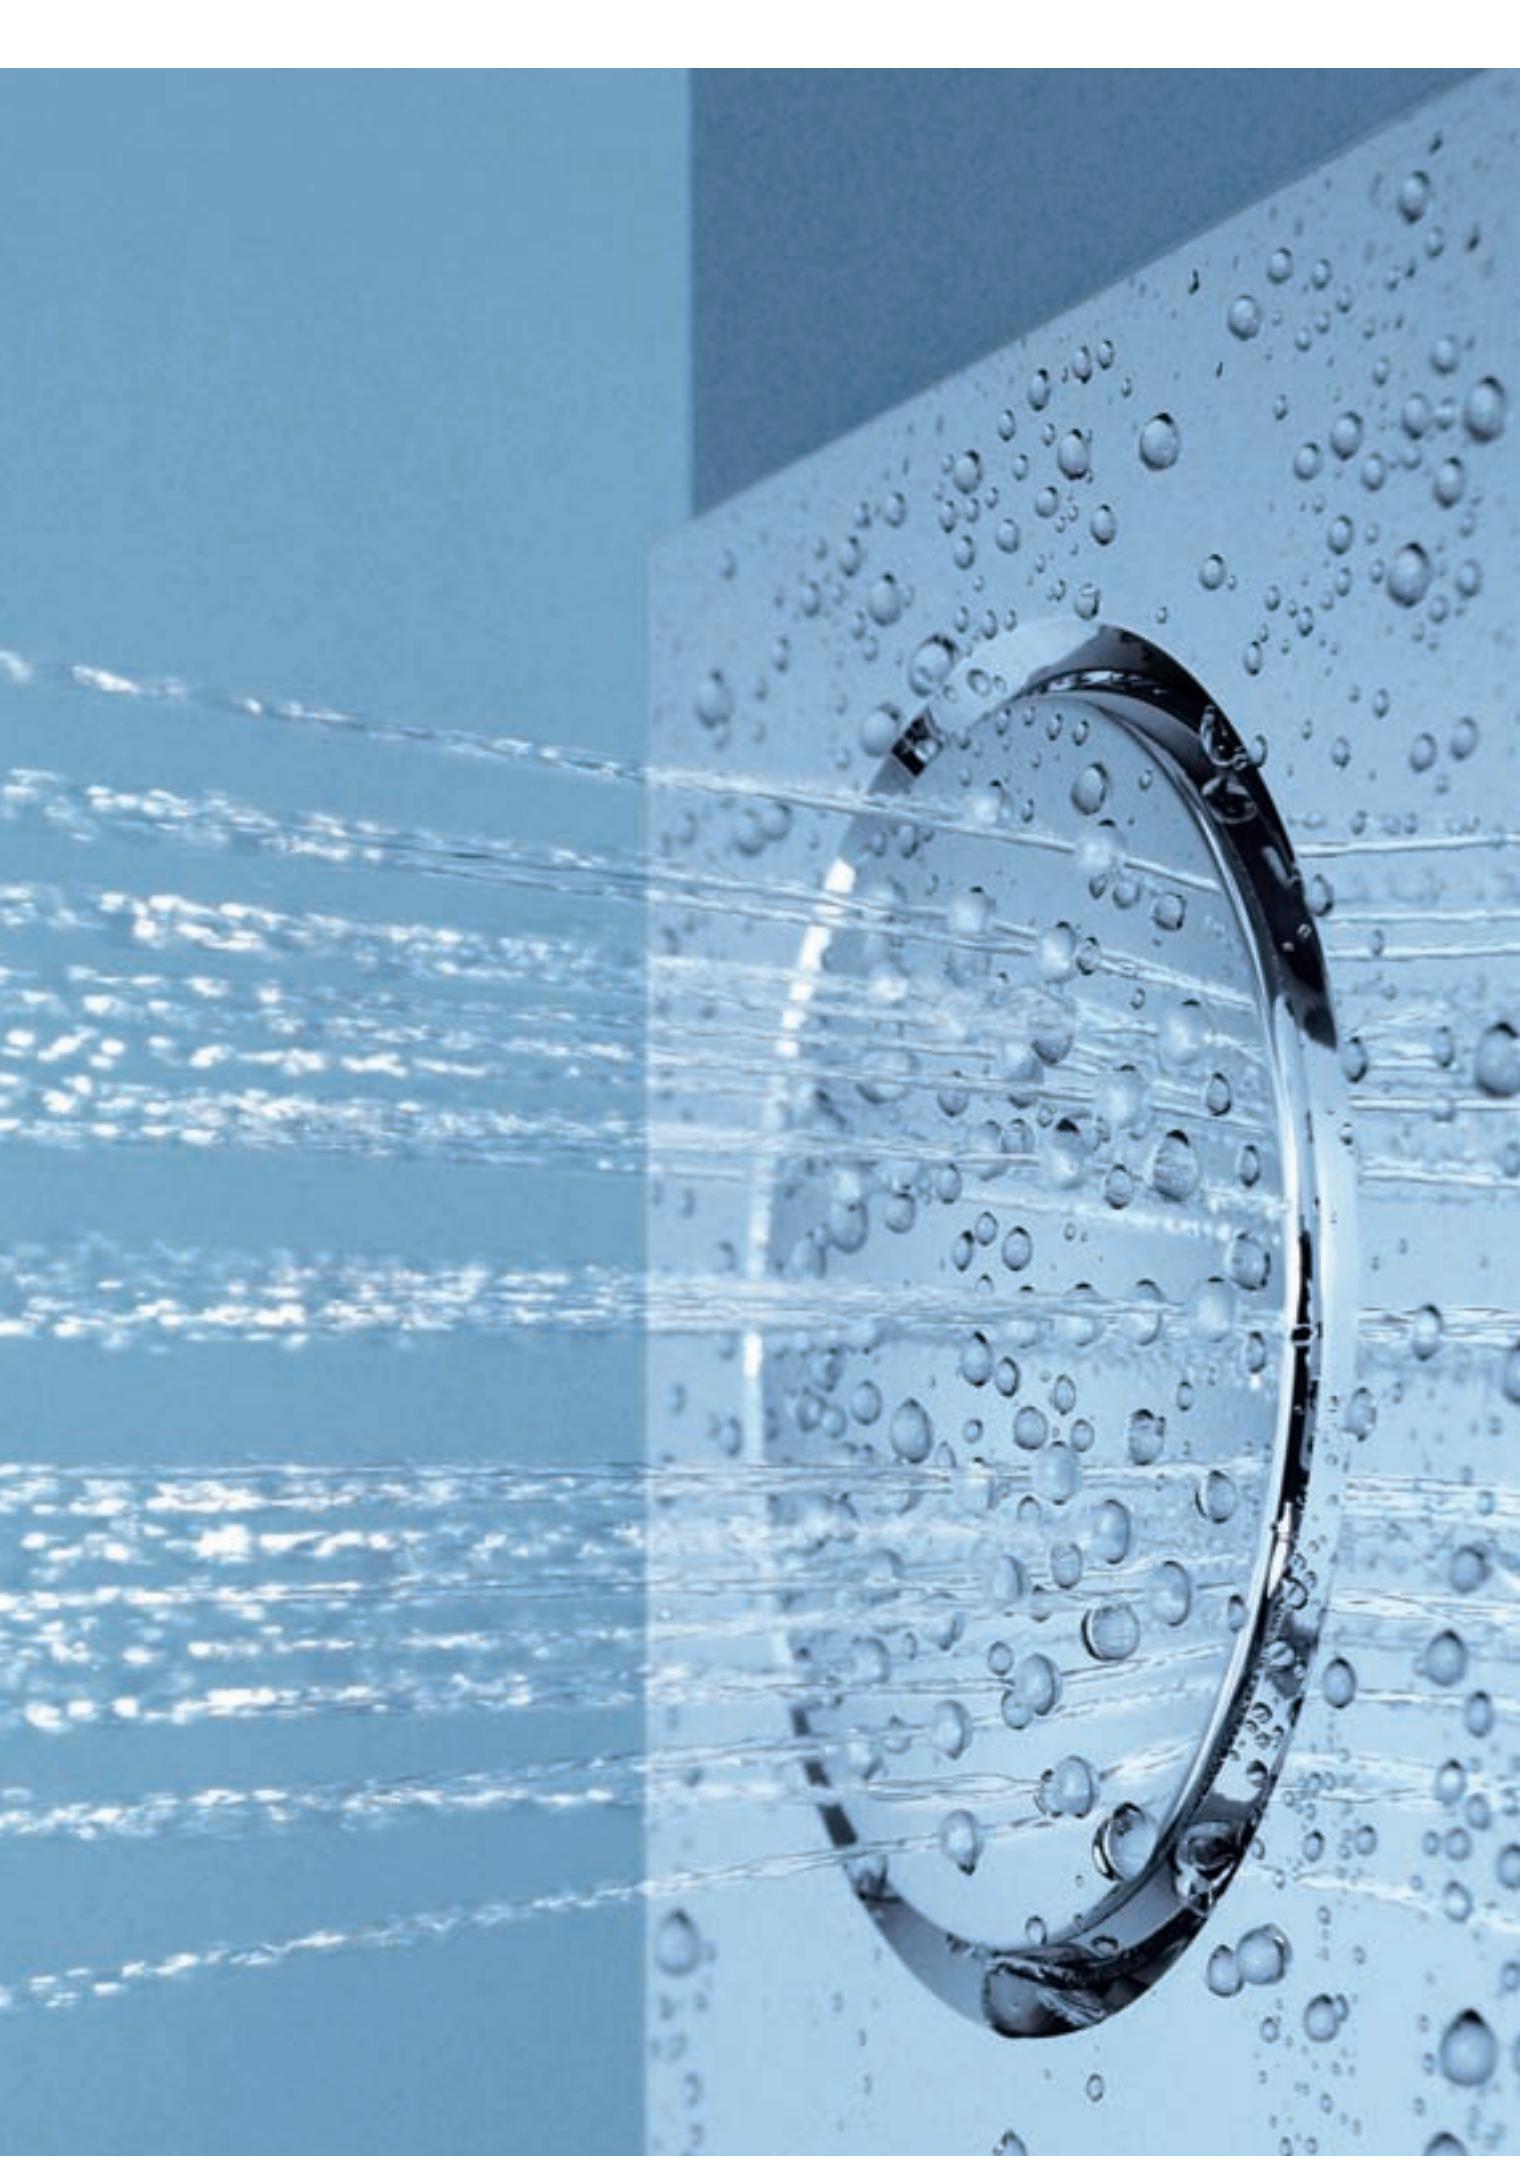

Each unit features GROHE DreamSpray® technology, for equal and efficient distribution of water to every single nozzle, while GROHE FlowBalance allows the user to adjust the flow rate of each shower tile to match their preferred level of intensity.

# GROHE SENA

Simple and understated, the modern cylindrical design of the Sena hand shower makes it the preferred choice for architectural spaces.

Despite its diminutive size, Sena delivers a powerful spray thanks to the GROHE DreamSpray® technology inside – which ensures the water is evenly distributed across all the jets. Its crisp profile is highlighted by the immaculate GROHE StarLight® chrome finish, while SpeedClean nozzles prevent the accumulation of limescale.

# GROHE RAINSHOWER® NEXT GENERATION

Rainshower® Next Generation hand and head showers are the perfect choice for a high-impact bathroom project. Never before has it been this easy to introduce designer elements and added value to the bathroom. Without undertaking a tedious renovation exercise.

Packed with our unbeatable GROHE DreamSpray® technology, the hand showers can be purchased alone or as part of a shower set. The shower sets with rail feature GROHE QuickFix® wall brackets – a flexible fixing system for easy installation, especially in retrofit situations. Simply remove the old brackets and fix the new brackets to the wall using the existing holes, then clip the rail into place.

Rainshower® Icon and Rainshower® Solo head showers were created to match the two styles of hand shower. Measuring 190 mm diameter, their spray plates are offered in two finishes: Nighttime Grey or GROHE StarLight® chrome.

# GROHE RAINSHOWER® NEXT GENERATION ICON

Rainshower® Next Generation Icon is the ultimate style statement. The award-winning design provides a unique interface to water by challenging the very notion of a solid volume product. The halo-shaped spray face reduces the aesthetic volume and delivers a large full spray thanks to the perfectly aligned shower nozzles and GROHE DreamSpray® technology.

# GROHE RAINSHOWER® NEXT GENERATION SOLO

Rainshower® Next Generation Solo is the result of extensive consumer research – which clearly indicated that the Rain spray pattern is by far the most used and appreciated of all available sprays.

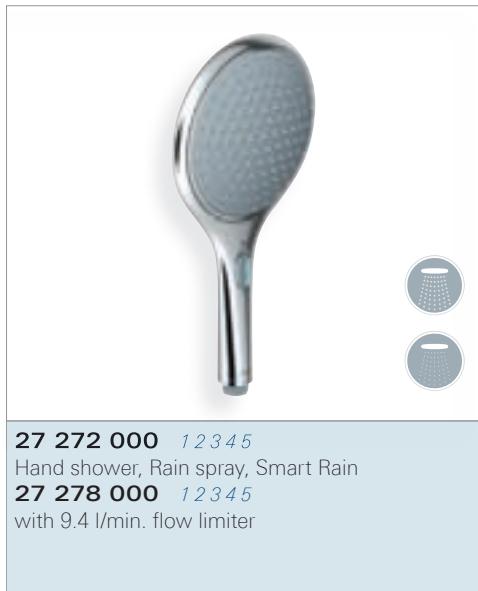

Surrounded by a ring of GROHE StarLight® chrome, the single spray is intuitive and honest and delivers the unique benefits of GROHE DreamSpray® for an unparalleled shower. The large spray face is easy to care for thanks to the SpeedClean nozzles, which prevent the build-up of limescale.

# GROHE RAINSHOWER® NEXT GENERATION ECO

Rainshower® Next Generation Eco was inspired by a simple consumer insight "from above, the human body is not round." The lozenge-shaped design of the spray face mirrors the shape of the human body and benefits from GROHE DreamSpray® technology – for even and efficient water distribution. For the environmentally conscious consumer, simply activate the Eco button to use even less water.

# GROHE MOVARIO

Versatile and original, the multi-functional design of Movario combines the universal appeal of a hand shower with the benefits of a side shower. The ingenious design of the 360° RotaHead enables you to change the direction of the spray with a simple twist of the showerhead.

Two models offer a choice of up to five spray patterns and benefit from GROHE DreamSpray® technology – ensuring precise and even water distribution, whichever pattern you choose.

# GROHE RELEXA DELUXE

Combining modern Cosmopolitan design with the latest GROHE DreamSpray® technology, Relexa Deluxe benefits from four luxurious spray patterns – making it the perfect addition to a high-performance shower area.

Finished in GROHE StarLight® chrome with a Night-time Grey spray face, the 130 mm diameter head shower features an ergonomic lever for effortless switching between the four sprays: Rain, Normal, Champagne spray and Deluxe Champagne spray. For maximum comfort, a multi-directional ball joint enables you to precisely and easily direct the water flow.

# GROHE EUPHORIA

Style, value and water-efficiency – the Euphoria shower collection offers a wide choice of hand and head showers and a range of spray patterns, enabling you to create a sensory showering experience even on a limited budget.

The ergonomic design of the Euphoria hand shower features an extended handle that flows seamlessly into the spray face – surrounding it with an elegant ring of chrome. For an unparalleled shower experience, GROHE DreamSpray® distributes the water evenly to every nozzle, while the SmartRain spray that is created by the SprayDimmer on the hand shower reduces water consumption by up to 40%. To complete your shower, choose from three styles of head shower design.

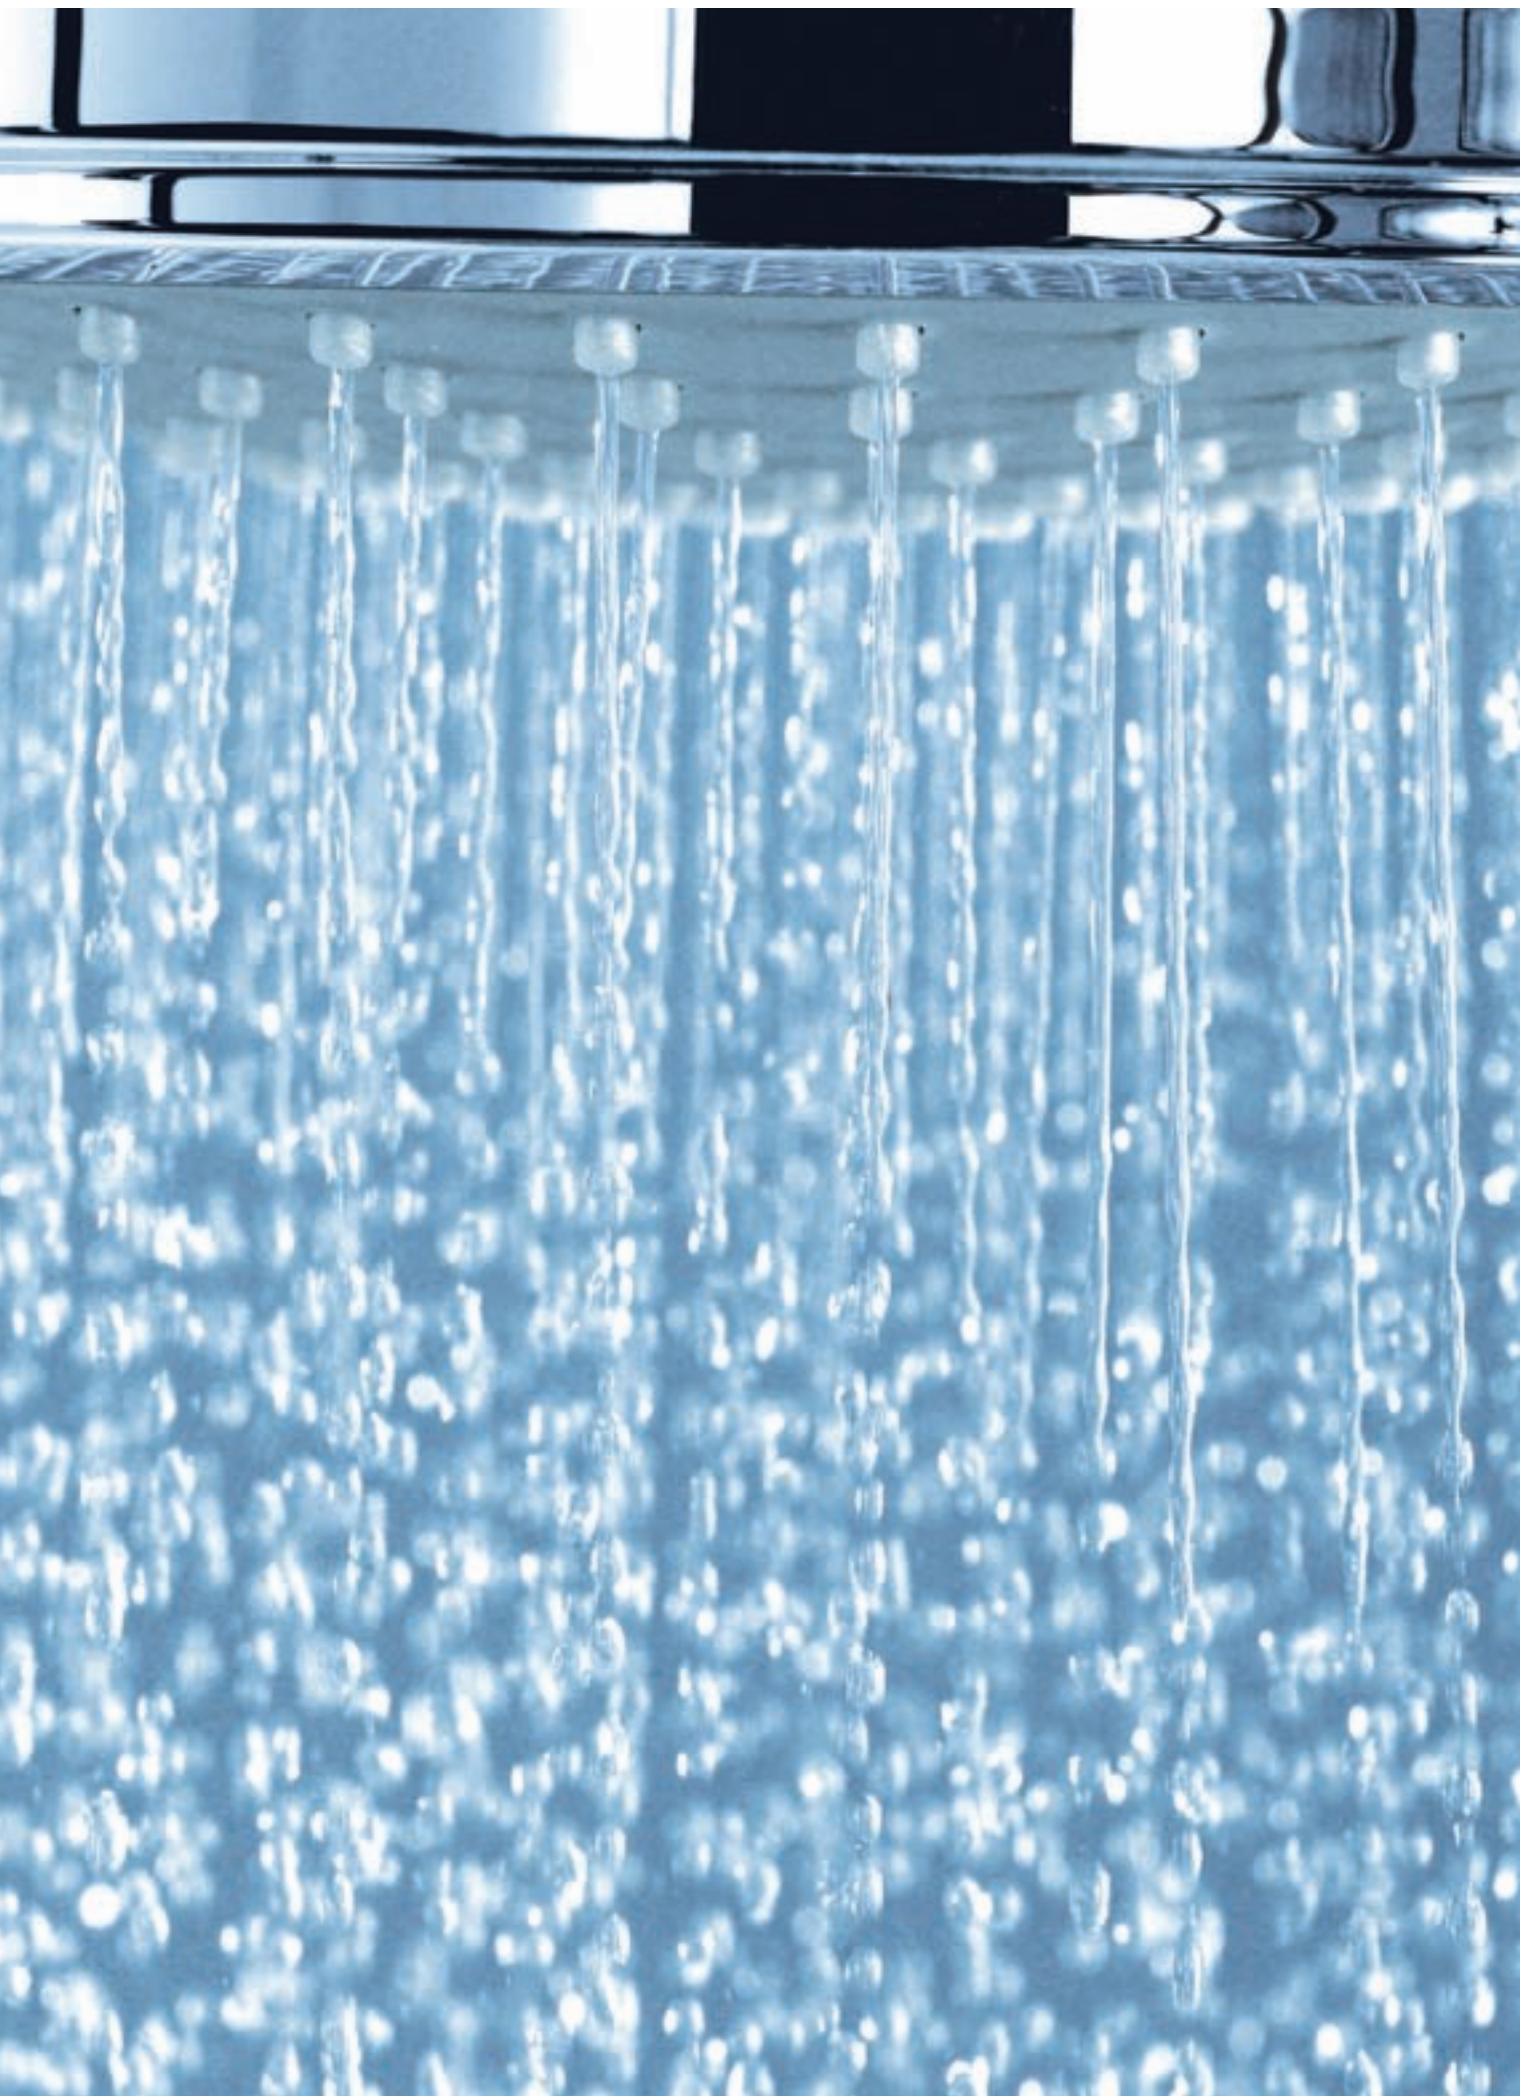

The classic Euphoria hand and head showers are joined by Euphoria Cube – a concise collection of shower heads with architectural appeal. Featuring true square design, the range embraces minimalist design to work in harmony with our Cosmopolitan collections.

# GROHE EUPHORIA CUBE

A precise combination of square and rectangular shapes enhanced with the latest GROHE technologies make Euphoria Cube the smart choice if you appreciate minimalist design in the bathroom. The reduced lines and modern aesthetic of the hand shower reflect the crisp square outline of the head shower in this understated collection, which introduces pure geometric forms to your shower environment. For perfect delivery of our exhilarating Rain spray pattern, Euphoria Cube showers feature GROHE DreamSpray® technology.

# GROHE FLUSH PLATES THE PERFECT FINISHING TOUCH.

GROHE flush plates complement our bathroom collections and will enhance your next bathroom project. They fit our Rapid SL frames, Uniset and all concealed systems, feature GROHE EasyConnect – a single pneumatic hose for fast installation – and can even be retrofitted if required.

Fixed vertically or horizontally to suit their surroundings, the majority can also be fitted with GROHE Fresh – our solution for a clean and fresh WC.

Our flush plates feature dual-flush actuation of 6 litres and 3 litres – allowing the user to choose how much water to use. For further water saving, all GROHE cisterns can be adjusted to reduce the larger flush volume to 4.5 litres.

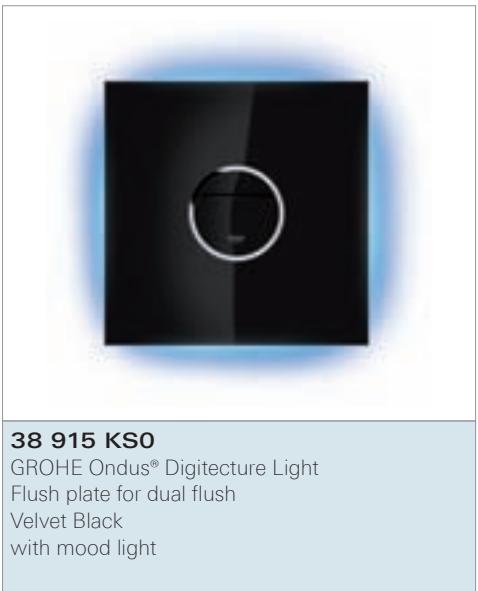

# GROHE ONDUS® DIGITECTURE LIGHT

Uniting water-saving dual flush with inspired new lighting effects, GROHE Ondus® Digitecture Light gives an ambient wash of coloured light to the bathroom. Made from safety glass, the 200 mm square plates are available in black or white and feature the latest LED technology. Illumination is set using either the built-in timer function, or by the 'on/off' switch and can be fixed at a single colour or left to cycle through an ever-changing light display.

But it's not just about decoration. The LED gives off just the right amount of light that should you need to use the toilet in the middle of the night you don't have to turn on the main bathroom light; so there's less chance of disturbing your body clock and natural sleep patterns.

In addition to traditional push-button flushing, the plate also features a proximity sensor for touch-free flushing – simply pass your hand in front of the either the large or small button and the toilet will flush automatically.

GROHE EcoJoy™

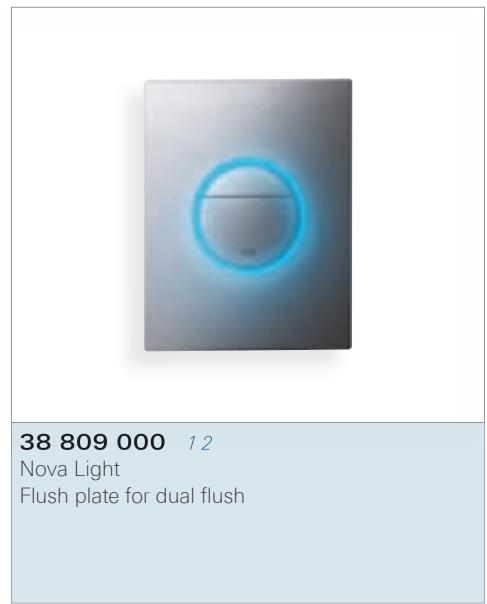

GROHE StarLight®

# GROHE NOVA LIGHT

Reflecting the design aesthetic of the GROHE Cosmopolitan collections, the Nova Light utilises two basic geometric shapes. This simple combination of a circle framed by a rectangle is brought to life by a ring of light, while casting a gentle coloured glow over the surrounding area.

Mains-powered LED technology allows you to set the light to any colour – blue, green, red, yellow or one of the many tones in-between – or to have a constantly changing spectrum. Finished in GROHE StarLight® chrome, Nova Light can be mounted in either landscape or portrait format and can be programmed to switch on and off at any given time.

And if you need to use the toilet during the night, the LED gives off just the right amount of light so you don't have to turn on the main bathroom light – so there's less chance of disturbing your body clock and natural sleep patterns.

# GROHE COSMOPOLITAN LEATHER

Cosmopolitan Leather flush plates combine striking design with a select range of luxurious leather finishes. The palette of four neutral colors: White, Beige, Black or Tanin red, is available in either plain or quilted leather – for effortless coordination with a wide range of bathroom materials.

Flush buttons in GROHE StarLight® chrome are complemented by the string of chrome that frames the leather surround – adding a refined touch to the design. Plates can be mounted horizontally or vertically to suit the requirements of your installation.

# GROHE COSMOPOLITAN GLASS

As the bathroom evolves tiled surfaces continue to give way to a variety of different wall finishes. The latest addition is glass.

Pure, modern and enticing – Cosmopolitan Glass plates feature chamfered and polished edges resonating precision and quality. A mere 6 mm thick, their glossy surface highlights the pristine finish of the GROHE StarLight® chrome button. A choice of four glass finishes includes black and white – which could be used to complement the new black and white mixers in our Quadra collection. Cosmopolitan Glass includes models for the WC and urinal, enabling complete coordination across your project.

# GROHE COSMOPOLITAN WOOD

Timeless and enduring, few materials can rival wood when it comes to adding warmth to an interior. GROHE Cosmopolitan Wood is offered in a choice of six natural wood finishes to complement the latest styles of bathroom furniture and wood-effect tiles.

From fresh Bamboo to the rich tones of American walnut or cherry, the pronounced grain of the wood veneer radiates authenticity and is highlighted by a band of striking GROHE StarLight® chrome, which complements the dual-flush button. The natural finish ensures no two surrounds are the same – bestowing a unique touch to the bathroom. Measuring a discreet 197x156 mm, they can be mounted horizontally or vertically.

# GROHE NOVA PRINT

With its fresh design and choice of printed finishes, Nova Print brings an exciting modern element to our comprehensive range of flush plates. Its use of geometric shapes – circular actuation is framed by a rectangular plate – makes it the ideal choice for cutting-edge spaces.

Avantgarde bathrooms will benefit from the graphic prints, which include a circular design in chrome to reflect light around the space. A choice of colours ensures the design complements several of our mixer and shower collections.

# GROHE ARENA

The GROHE visual DNA enables consumers to recognise GROHE quality at a glance. Central to this is the use of lozenge shapes, which can be found across several of our ranges.

On GROHE Arena the soft, user-friendly appeal of the lozenge is used to form the actuation buttons. Available in GROHE StarLight® chrome, matt chrome and white, the design complements a number of our mixer collections and also includes a model for urinals.

# GROHE SANITARY SYSTEMS

## INSPIRED SOLUTIONS FOR SANITARY WARE.

Create a streamlined contemporary bathroom with our range of concealed installation and flushing systems.

Lifestyle changes and technological advances have transformed the bathroom from a purely functional space into the most indulgent and exciting room in the house. Our desire to create a space that is both relaxing and hard working has led us towards more streamlined bathing spaces, where only the beautiful and key pieces are on show. Our range of sanitary systems allows you to create the bathroom of your dreams, by offering a choice of quick and secure ways to fix wall-mounted sanitary ware and a number of advanced flushing solutions.

### **Contemporary spaces**

Wall-hung sanitary ware lends an up-to-the-minute contemporary look and is now the preferred choice of style-conscious homeowners, supplanting the cumbersome pedestal basins and close-coupled WCs of old. Visually, even the smallest of bathrooms will appear larger because the floor area is clear; and with no awkward corners to trap dirt, cleaning is quick and easy.

### **Choice and flexibility**

Whatever the size and shape of your bathroom, with Rapid SL you're no longer restricted to four walls. Thanks to our versatile frame system, the layout and design choices for your new bathroom are endless – the only limit is your imagination. Mid- and full-height walls can be introduced not only to 'zone' wet and dry areas but to provide additional space for basins and bidets, while our corner solutions allow you to utilise tight spaces. Concealed WC cisterns are ideal for installation with a back-to-wall toilet pan in furniture or in a cavity.

### **Simple installation**

Whether you are planning a new project or modernising your existing bathroom, our Rapid SL frame system ensures hassle-free bathroom installation. Frames can either be built into stud walls or placed in front of a brick or stud wall – so there's no need to spend time and money hacking off old tiling. The frame is simply secured in place during the construction or refurbishment of your bathroom and concealed behind a wall.

### **Design and technology**

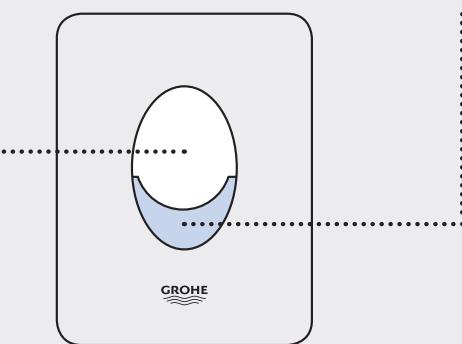

As with all our products, Rapid SL offers a host of other benefits. Our concealed cisterns are unbelievably quiet, and this is enhanced when the cistern is fixed to an installation frame rather than the wall. They can be fitted with either dual or single flush plates designed to complement our bathroom collections – choose a dual flush model and you can save water by flushing with a reduced water volume.

For further information on Rapid SL and masonry installation frames visit our website: [www.grohe.co.uk](http://www.grohe.co.uk) or see our special Sanitary Systems brochure.

Press the large button  
and flush with the  
entire water volume.

Press the Eco button  
and flush with a  
reduced three-litre volume.

Choose dual flush technology and use up to 50 % less water.

# GROHE RAPID SL INSTALLATION SYSTEMS

The Rapid SL system gives you the freedom to design your ultimate bathroom by providing a secure and quick method of installing wall-hung basins, bidets, urinals and WCs.

Available in three different installation heights, each frame comes pre-assembled with sanitary ware fixings and is subject to stringent testing – our WC frames are tested to hold 400kg.

# GROHE FRESH

Creating innovative solutions for everyday problems is something that GROHE is proud of. GROHE Fresh brings a new level of convenience to the bathroom. It allows you to have the best of both worlds – the clean lines achieved from choosing a concealed cisterns and the continuous hygiene and cleanliness associated with cistern blocks. Until now, it was not possible to access a concealed cistern to add a cleaning block. GROHE Fresh features an easy-to-open flush plate, which gives access to a slide that delivers the tablet into the cistern. The entire process takes seconds, thanks to the hinged plate that opens like a door.

GROHE Fresh is compatible with all GROHE concealed cisterns with small actuation plates – whether it's a new installation project or the upgrade of an existing one. It is offered as a set with the flush plate of your choice, or as retrofit accessory to use with your current cistern and plate. For older cisterns, simply remove the fixing frame, add the slide to the cistern and attach the new frame, then re-connect the pneumatic hose to the actuation plate. For cisterns without the AV1 flushing valve, a complete upgrade kit is available.

Open flush plate of the cistern with a fingertip.

Choose recommended odour block or cleaning tab.

Slide in the cleaning tab.

Close and flush!

# GROHE RAPIDO U

Rapido U is our universal concealed body for the installation of urinals. With a depth of only 80 mm, Rapido U can be used with a choice of manual or electronic actuation plates. Electronic actuation plates feature the latest energy-efficient technology for reduced power consumption. They can be either battery or mains (230V) operated, while the standardization of the plate sizes means that it is now possible to upgrade from manual to electronic at a later date. Available in Cosmopolitan, Contemporary and Authentic design styles, the plates complement the GROHE range of WC actuation plates – allowing for a coordinated look throughout your project.

# REFERENCES

As diverse as people's aspirations, requirements and tastes may be, and despite contrasts between cultural requirements, the basic needs of people on this planet are the same. Across every continent, in rural and urban environments, GROHE is the brand of choice for every shape, size and style of bathroom. And a smart choice at that.

# ENJOY THE INSPIRATION

Like attracts like. Therefore, it's hardly surprising that GROHE products can be found in some of the finest buildings in the world. From luxury hotel suites and spas to the smartest residential addresses, our mixers, showers and sanitary systems are selected by architects and designers looking to treat the end user to a five-star experience.

Our products are reliable, durable and are engineered to perform under the most demanding circumstances. Original designs that make a statement, are intuitive to use and offer exceptional safety, comfort and enjoyment. Which is why those in the know select GROHE, every time.

# SERVICES

The exceptional quality offered by GROHE is assured in all respects. Before a product is cleared for shipment to the customer, it has to pass numerous tests and inspections - the most stringent of their kind in the industry - which verify the perfect functionality, user-friendliness and appearance of each single component.

# GROHE QR CODES

## What is this image?

This is a Quick Response code (QR code). It represents the address (URL) of a single page on a website. The image here stands for "[www.grohe.co.uk](http://www.grohe.co.uk)".

## How does a QR code work?

Sometimes page addresses can be very long e.g. [http://www.grohe.co.uk/en/bathroom-products/browse-by-application/shower/shower-systems/m/25\\_928/page/modules/pn/index.php](http://www.grohe.co.uk/en/bathroom-products/browse-by-application/shower/shower-systems/m/25_928/page/modules/pn/index.php). A QR code enables you to open a web page quickly and easily, without typing the URL into your phone. Instead, you simply "scan" the image; your phone reads it, converts it back into the URL and opens the web page.

## How do I "scan" the image?

You will need a mobile phone with a camera and internet access, plus a QR code reader installed on your phone.

## Where can I download a QR code reader?

We suggest you try the following websites. There are also others that offer a similar service.

<http://www.i-nigma.mobi>

<http://reader.kaywa.com>

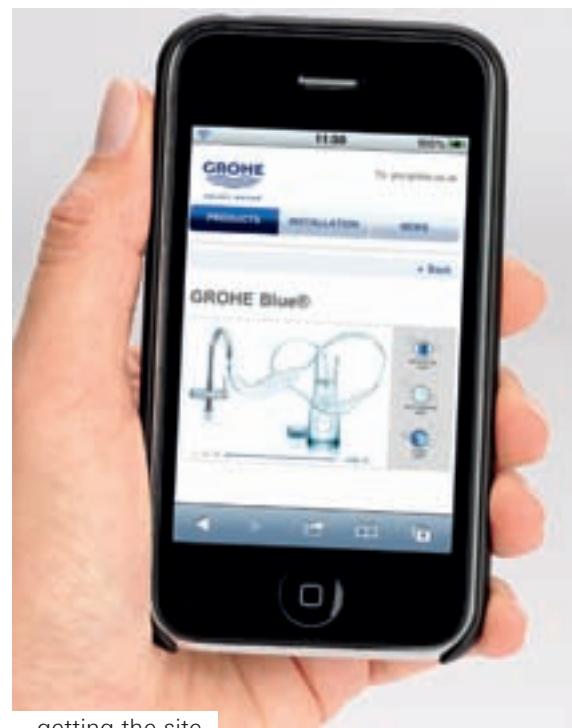

<http://upcode.mobi>

You also can download a reader from your App store.

## Further information

For more details please open [www.grohe.co.uk/qr-code](http://www.grohe.co.uk/qr-code)

# ENJOY THE SERVICE

A wealth of information, planning resources and advice can be found on our website: [www.grohe.co.uk](http://www.grohe.co.uk) – a virtual world overflowing with ideas and inspiration.

Plan your new bathroom with the GROHE Cube – our online design tool. Here you'll find inspirational settings where you can match brassware to bathroom ceramics and experiment with different shower fittings.

Once you've chosen your perfect combination use our showroom locator to find your nearest GROHE-approved showroom.

**GROHE BATHROOM BROCHURE**  
With so many designs to choose from our premium bathroom fittings are divided into three style groups: Cosmopolitan, Contemporary and Authentic.

**GROHE KITCHEN BROCHURE**  
With designs to match all interior styles, all installations and all budgets, our enticing portfolio of kitchen tap will exceed your expectations.

## GROHE REFERENCES

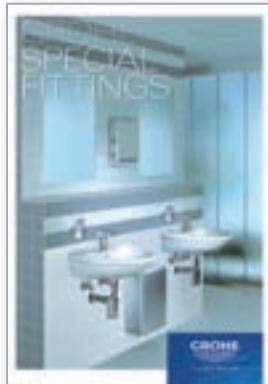

**GROHE REFERENCE BOOK**

Be inspired by our selection of references from around the globe.

If you are interested in our new book "Water enjoyment. Sustainable Quality, Technology and Design" featuring iconic projects globally, you can order the book at your local bookstore.

**GROHE SANITARY SYSTEMS BROCHURE**  
To make sure the new bathroom is fit for the future, rely on our water-saving WC and urinal fittings as well as our clever installation systems such as Rapid SL and Uniset for optimum design and rapid, clean installation.

**GROHE SPECIAL FITTINGS BROCHURE**  
As a professional partner, GROHE helps realise cost-effective solutions by providing the right fitting for every area of application. In this brochure you will find advice on selecting and specifying our special fittings.
